

Product Data Sheet

Fiber plaster

Product advantages

Fiber plaster - only recommended solution for plaster on all Smartbloc exterior above ground.

Fiber reinforced

Good adhesion

Sprayable

Abilities

Material consumption	Approx. 1,7 kg per. m ² and mm thickness. Approx. 13-15 kg per. m ² by 8 mm thickness
Application temperature	> +5°C
Recommended thickness	8-10 mm
Water requirements	Approx. 5,5 liter per 25 kg sack
Air content	18-22%
Compressive strength	Class: EN 998-1:2010
